

Pakistan

PROJECT NAME	Kausar Compression Facility
LOCATION	Southeast Pakistan
CONTRACT TYPE	Sale
SCHEDULE	60 Days
COMPLETION	June 2007
SCOPE OF WORK	Supply of 3 Waukesha L-7044 GSI/GE FS604 Valerus Flex Packages. Provided equipment, startup services and training to local technicians.

HIGHLIGHTS The choice of equipment by Valerus proved to be an appropriate choice, providing the required flexibility to adapt the equipment to changing operating conditions. The units started off in a single-stage application with very high suction pressure and pulled the well pressure down to convert the Flex Package to a two-stage application.
